

Magic Beans

To complete this activity, use a painting application on a desktop computer, tablet or laptop.

Imagine that you have some magic beans. What do you think your very own magic beans would grow into? Use your imagination and come up with your own idea.

Create an image of what grows from your magic beans using the painting application. Add a text box and write the name of your creation.

Challenge Task

Add another text box to your design and describe what grows from the magic beans.
