

The Big Write

My Way Back Home (version 1)

Written by Year 1

One sunny morning a girl went into the cupboard and saw her sleeping cat. The girl was called Rose and the cat was called Daisy. Rose also found a helicopter in the cupboard. She climbed in and flew away but the helicopter propeller fell off and it slowed down. Rose quickly landed on the planet Mars. Rose was scared. Mars felt like rock. It was very dark and very cold. Rose was scared and sad on her own.

Suddenly a slimy, green, bumpy alien appeared and said, "Hello, my name is Googly". Googly had funny googly eyes. He was a friendly alien and very kind. Rose and Googly made friends. They decided to have a party because it was Googly's birthday.

They played music and danced together.

Then Googly helped to fix the helicopter. He found a new propeller and screwed it onto the top. Next Rose hugged Googly goodbye and they flew off separately.

When Rose got home, she was very tired. She had had so much fun with Googly. She went to bed and had a long sleep dreaming about her adventure.
