

Roll It, Make It

I can identify, represent and estimate numbers using different representations.

You will need two 6-sided dice. Roll them to make a two-digit number, then represent it in different ways.

Roll a number	Write it in words	Partition it	Represent it as tens and ones
		_____ + _____	
		_____ + _____	
		_____ + _____	
		_____ + _____	
		_____ + _____	
		_____ + _____	
		_____ + _____	

Evie rolls a dice. She then completes the table below. Is she correct?

54	forty-five	$50 + 4$	
----	------------	----------	--

Roll It, Make It

I can identify, represent and estimate numbers using different representations.

First, make the spinner on the next page. Spin your spinner twice and use the digits to make a two-digit number. Fill in the table by representing your number in different ways.

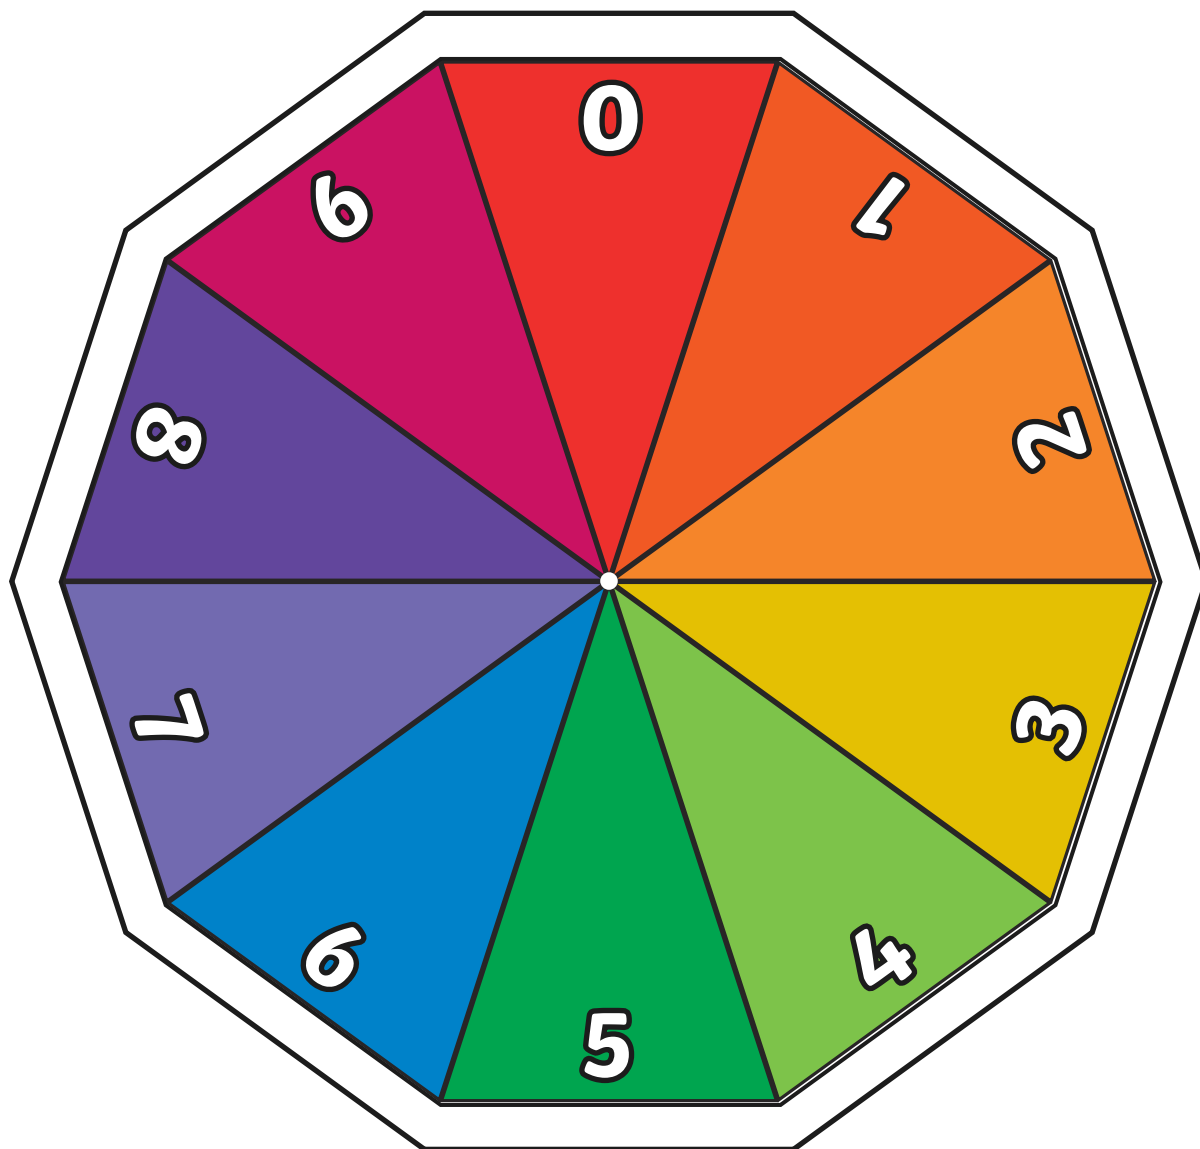

Roll a number	Write it in words	Partition it	Represent it as tens and ones
		_____ + _____	
		_____ + _____	
		_____ + _____	
		_____ + _____	
		_____ + _____	
		_____ + _____	
		_____ + _____	

Evie spins a 6 and 7. She then completes the table below. Is she correct?

67	seventy-six	$6 + 7$	
----	-------------	---------	--

Spinner

Use a paperclip as a spinner, held in place by the tip of your pencil placed on the white dot on the number wheel. Spin the paperclip to generate a number.

Roll It, Make It

I can identify, represent and estimate numbers using different representations.

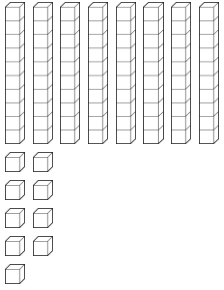

First, make the spinner on the next page. Spin your spinner twice and use the digits to make a two-digit number. Fill in the table by representing your number in different ways.

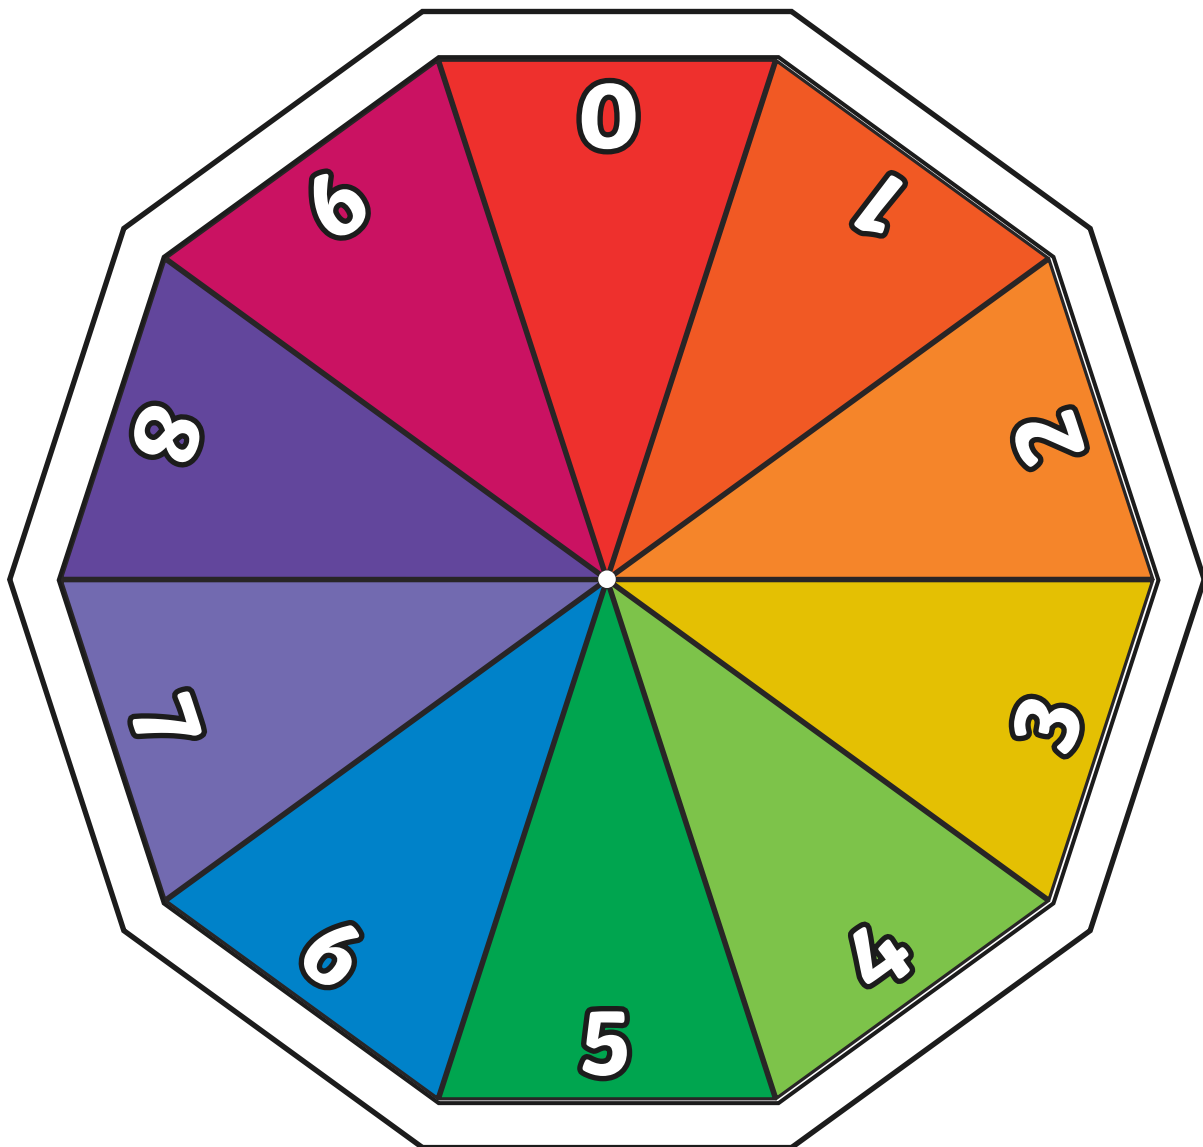

Roll a number	Write it in words	Partition it	Partition it differently	Represent it as tens and ones
		_____ + _____	_____ + _____	
		_____ + _____	_____ + _____	
		_____ + _____	_____ + _____	
		_____ + _____	_____ + _____	
		_____ + _____	_____ + _____	
		_____ + _____	_____ + _____	
		_____ + _____	_____ + _____	

Roll It, Make It

Evie spins a 8 and 9. She then completes the table below. Is she correct?

98	eighty-nine	$9 + 8$	$80 + 18$	
----	-------------	---------	-----------	---

Use a paperclip as a spinner, held in place by the tip of your pencil placed on the white dot on the number wheel. Spin the paperclip to generate a number.
