

A Student Guide to Using Microsoft Teams

Section 1:

How to use Teams on a Desktop or a Laptop

- How to log on
- How to upload an assignment
- How to access and respond to feedback given to you by your teacher

Section 2

How to use Teams on a tablet or mobile phone

- How to log on
- How to upload a picture of work you have completed as an assignment

SECTION 1 – USING TEAMS ON A DESKTOP OR A LAPTOP

Teams – How to Login

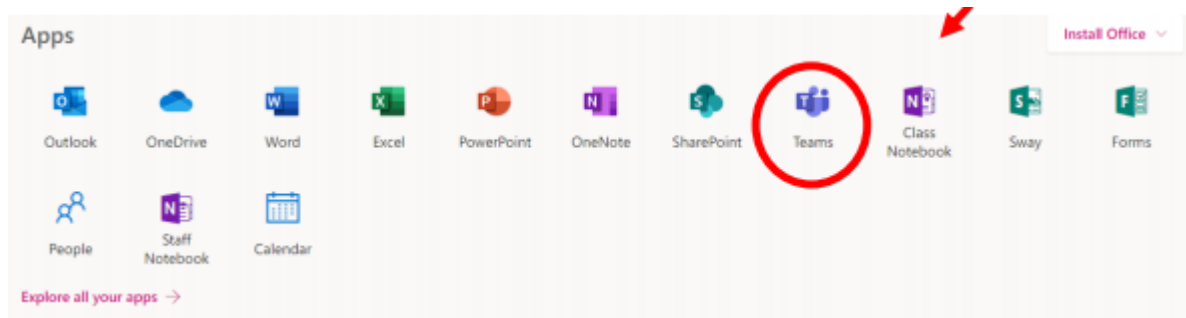

On any web browser, e.g. Google Chrome, Internet Explorer, Safari etc, go to www.office.com

Click sign in and sign in with your Microsoft Account.

Example: keapupil@kea.cornwall.sch.uk Password: Password123

Once you sign in, you will get the page below Click on the Teams icon

You should now see all the Teams that we have set up for you at school. For example - Year 1 on the right.

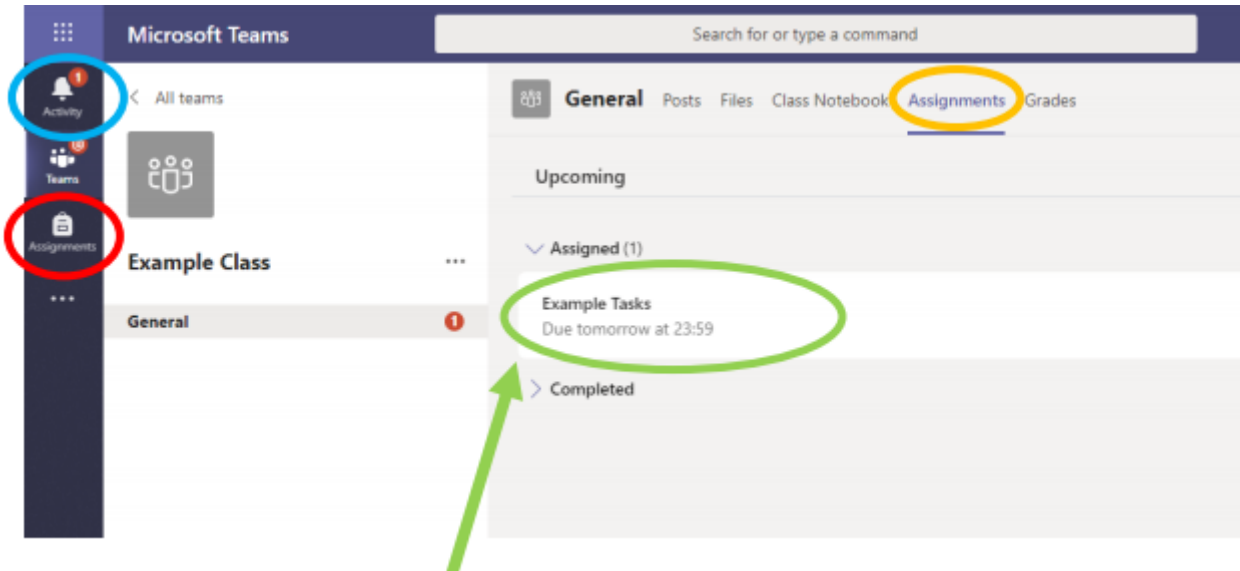

By clicking on the 3 dots on the top right you will be able to see all the posts for that team and any live sessions that are happening - here you can also join the live sessions.

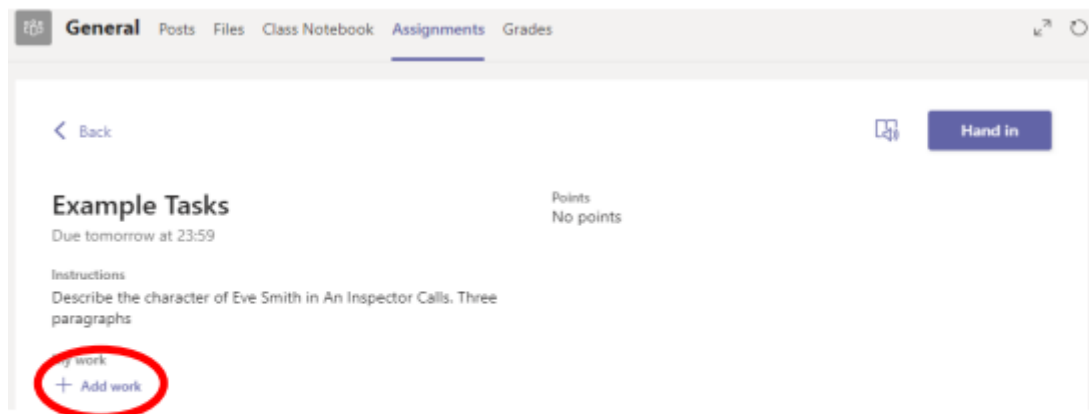

You can also install the desktop version of Teams for free.

Teams – Uploading an assignment

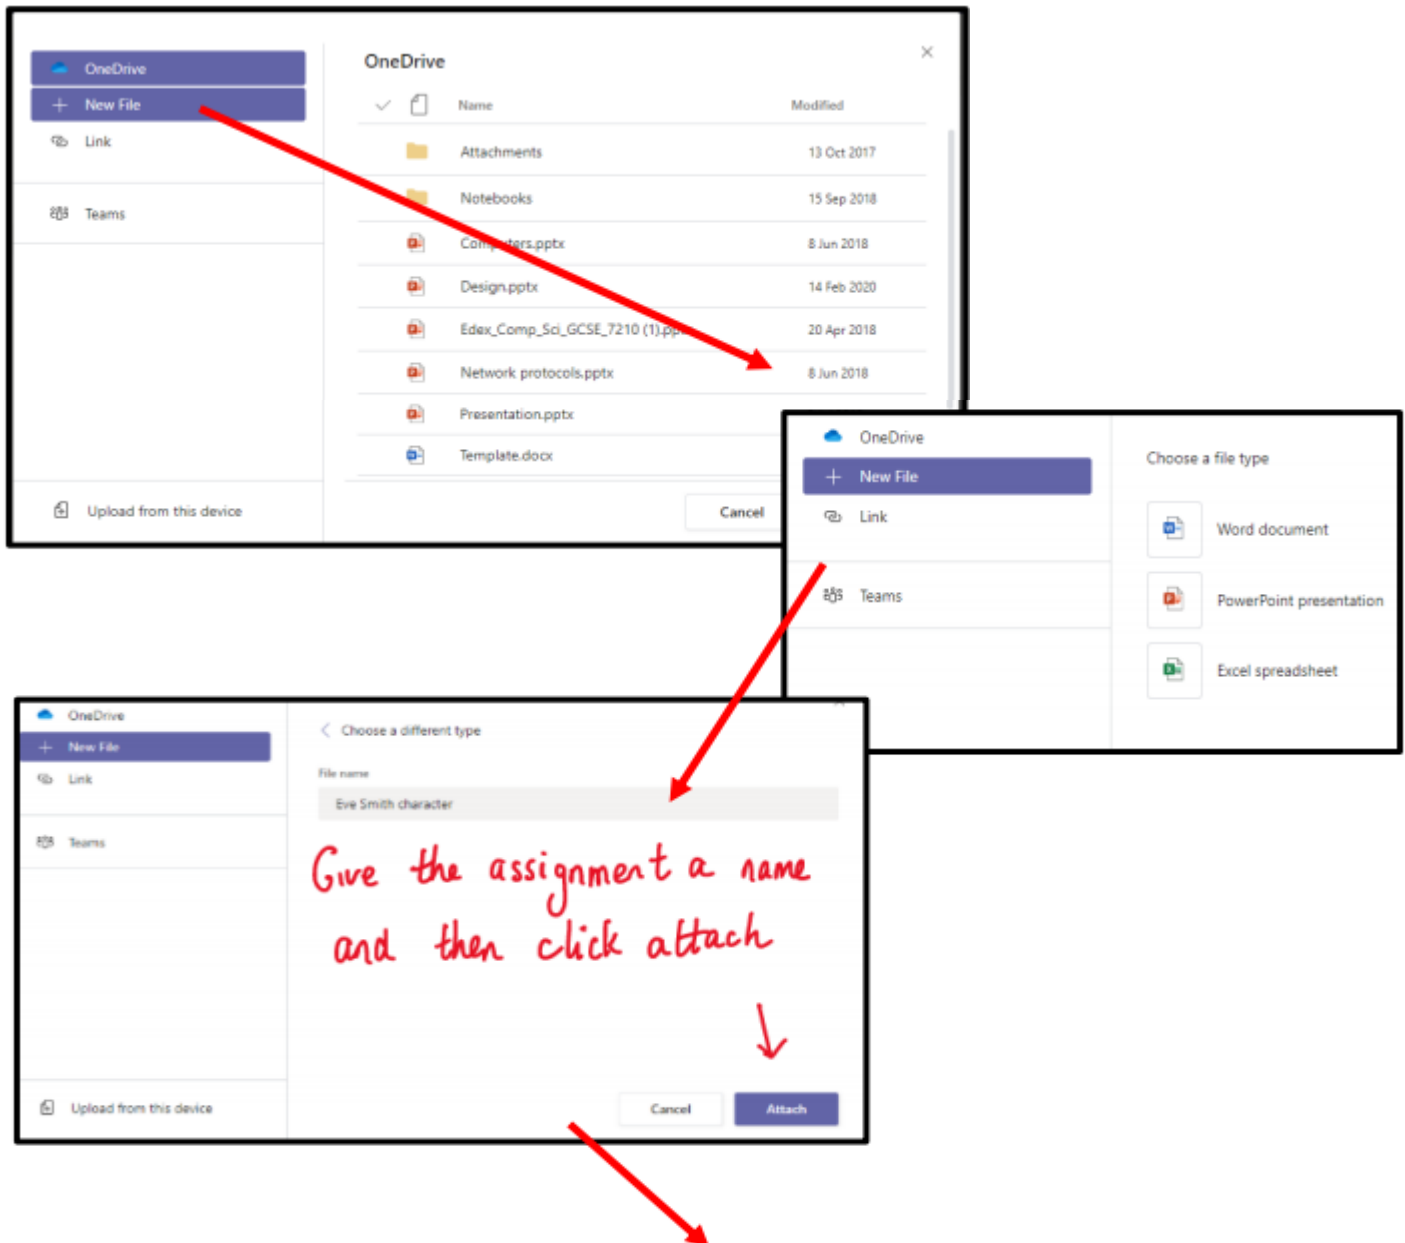

Your teacher can set assignment for you to complete. You will see a new notification every time your teacher sets a new assignment for you, which is circled in blue. By click on this notification, you will be brought to the assignments page. You can also click the assignments button in the left -hand menu to see all the different assignments set by your teacher, or you can click into your class and click on the assignments button circled in yellow.

Click on the assignment to access the task. To add some work, we first need to create a new document, then complete our work in it.

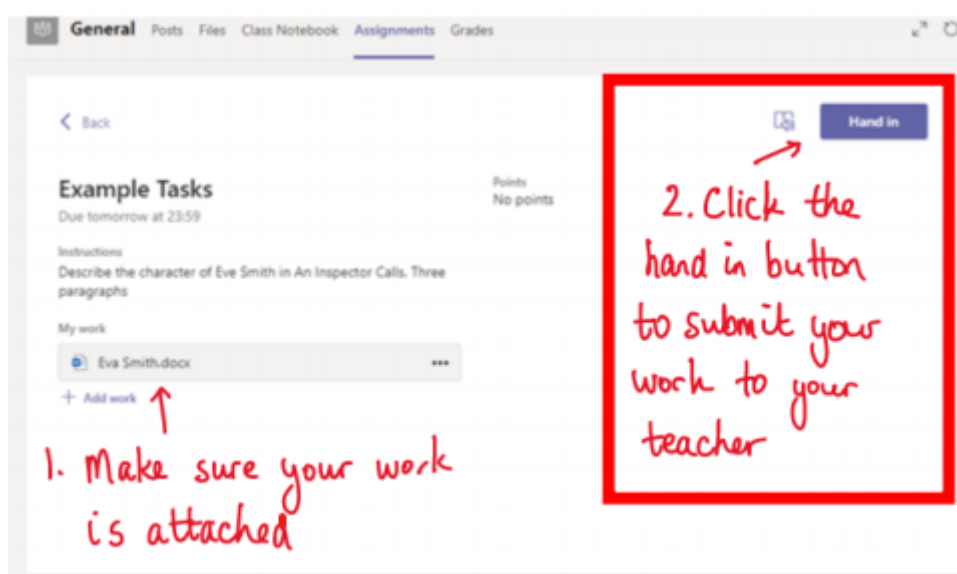

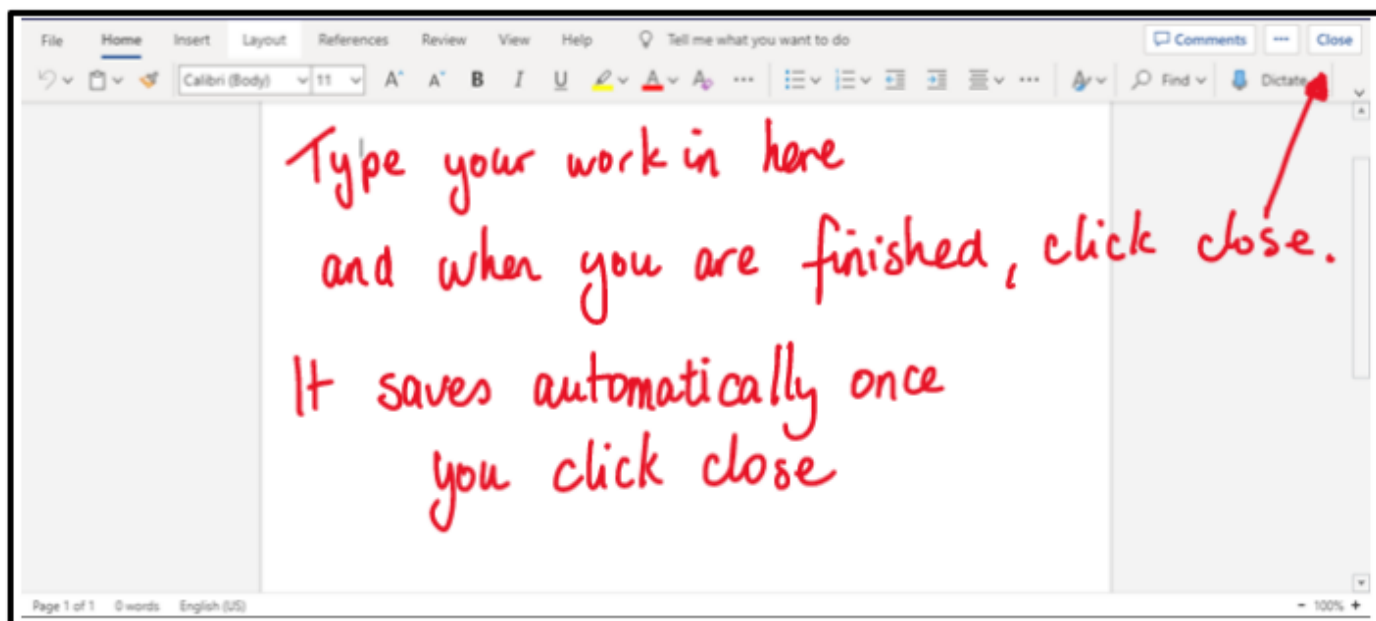

Using a new file

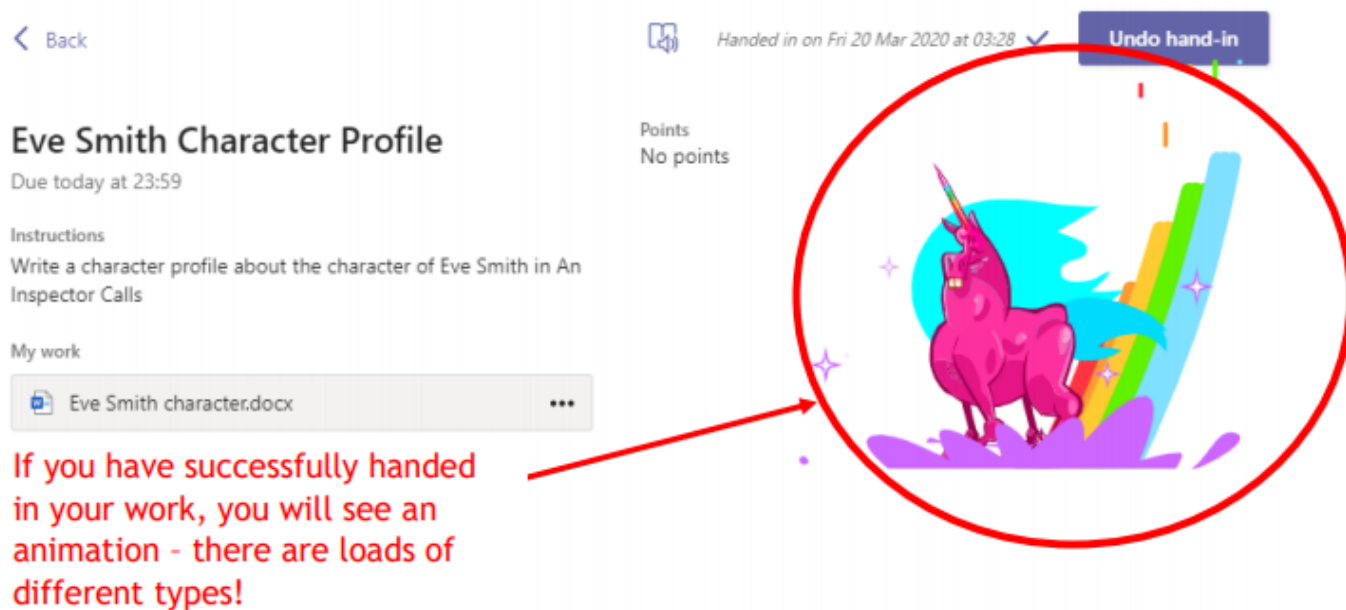

You have now created your document that you can start writing your work into. To start your work, click on the document name.

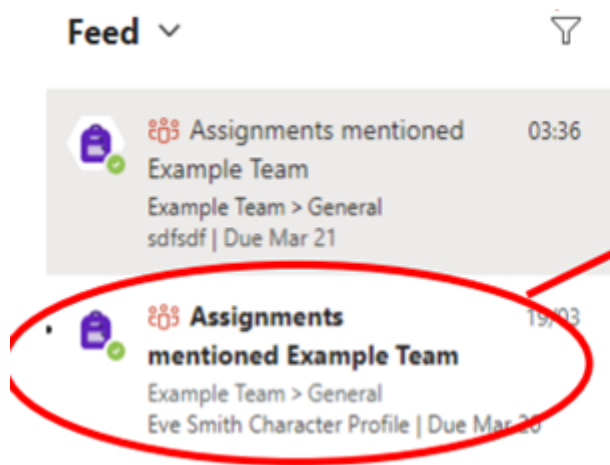

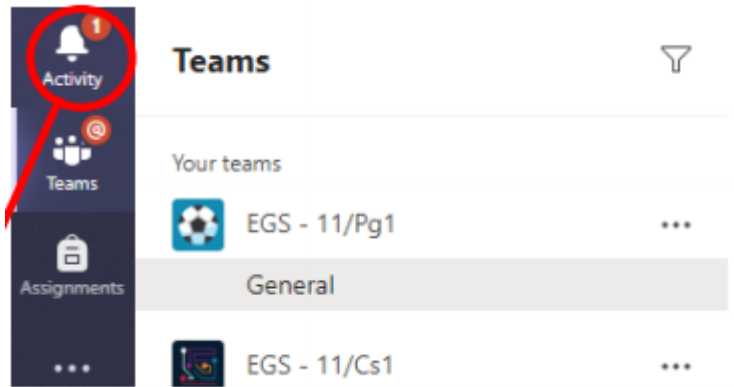

Make sure that you have your work attached and that it is not blank. Click the hand in button. Your teacher can now look at your work and give you feedback if required.

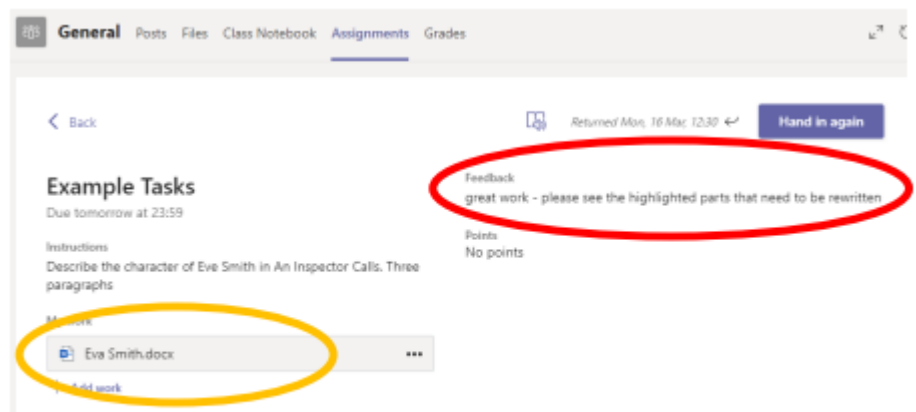

Teams – Getting feedback and responding to feedback

You will get a notification in your activity feed when a teacher has set you a new assignment or sent you feedback on your work. Click on the Activity button and it brings you to your feed. Any message in bold you have not read

This is a notification to say that there is a new assignment in the Example Class that you need to complete

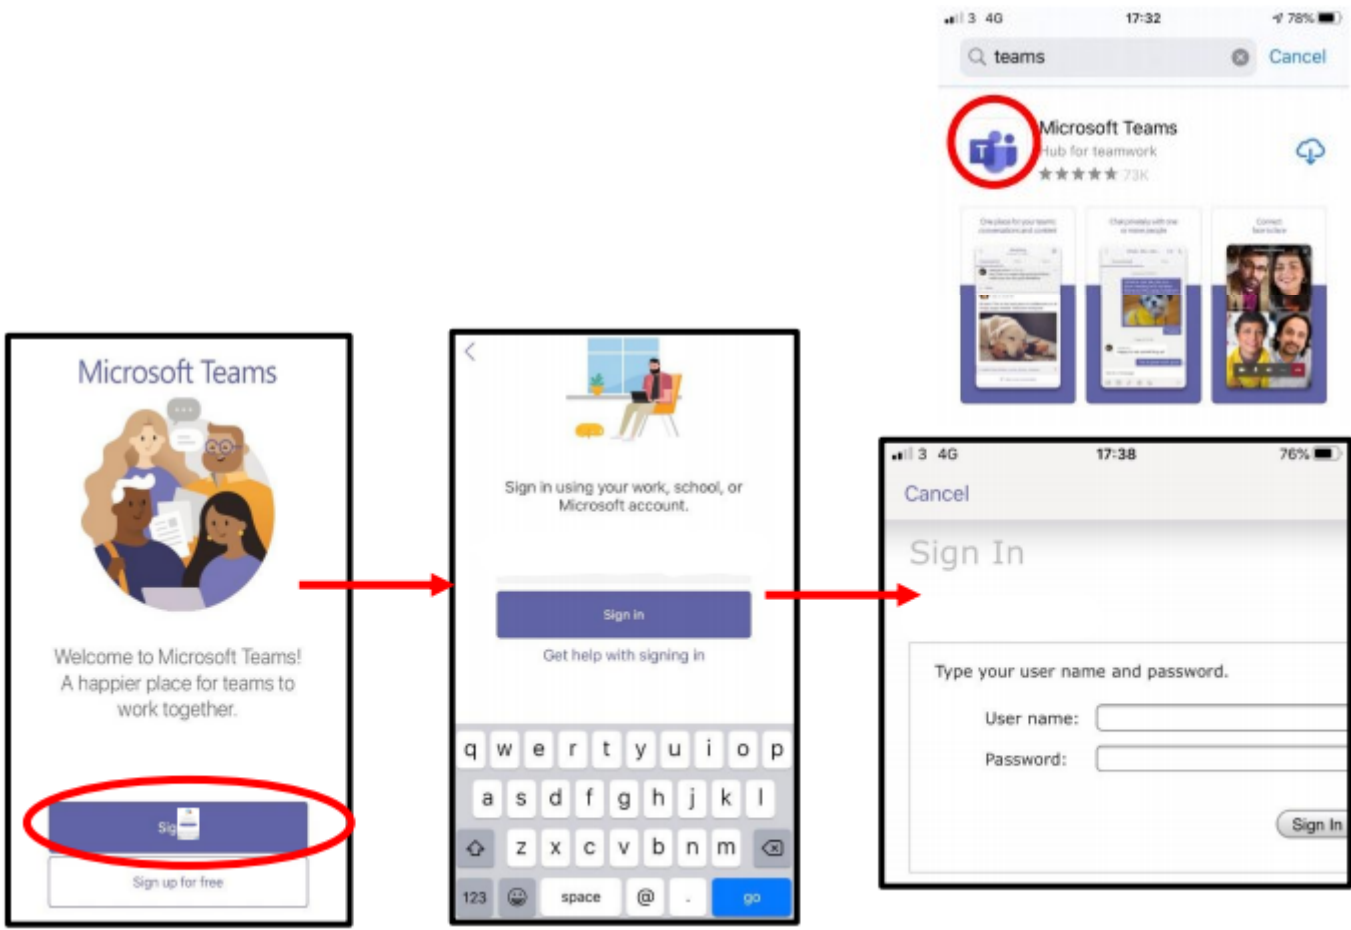

This piece of work has been looked at by this student's teacher and been given some feedback circled in red. You can click on the file to open it and act on the feedback given to you by your teacher, before handing it in again.

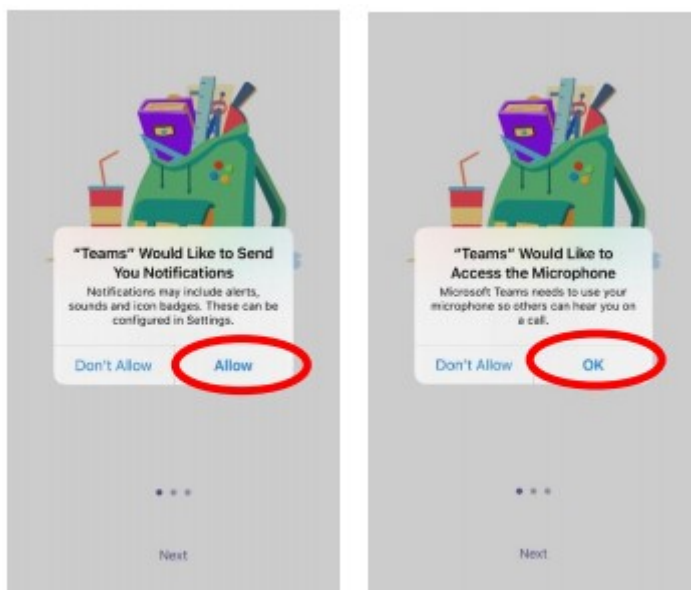

SECTION 2 – USING TEAMS ON A TABLET OR PHONE

Teams – Downloading the Teams App

The Microsoft Teams app is available for free on the App Store (iPad and iPhone) or Google Play store (Android tablets and phones). Search for Teams and look for the purple Teams icon circled in red and download. Once it is downloaded, open the app and log in.

Sign in with your school email address and password (make sure you are signed out of any other accounts on the computer - siblings/parents).

Turn on notifications for Teams so that you get an instant notification when your teacher has set you a new piece of work, posted an important message or sent you some feedback on work you submitted.

Teams – Uploading an Assignment

If you are uploading a document, follow the guide that is in section 1 as uploading a document from a phone or tablet is the same process. However if you have piece of written work that you need to upload, you can use your tablet or phone to take a picture of your work. You can find the assignment you have been set in two places - the activity feed and assignments – picture 1.
