Policy Overview

Where possible, to ensure that children are able to attend for school on a regular basis, we will support children who need to have a prescribed medicine administered during the school day. However, the following guidelines will apply.

Prescribed Medicines

Medicines should only be brought to school when absolutely essential; that is where it would be detrimental to the child's health if the medicine were not administered during the school day. We will only accept medicines that have been prescribed by a doctor, dentist, nurse prescriber or pharmacist prescriber. Medicines should always be provided in the original container as dispensed by a pharmacist and include the prescriber's instructions for administration. They will be kept in a central safe and secure place in the staffroom.

We **will not** accept medicines that have been taken out of the container as originally dispensed nor make changes to dosages on parental instructions.

Where possible all prescribed medicines should be preferably taken at home and where there are three dosages this is possible in the morning, after school hours and at bedtime.

No member of staff will administer any medicine in an intimate place without appropriate training, taking into account safeguarding and medical advice.

Controlled Drugs

Where these have been prescribed by the above they can be administered by school staff. They will be kept in a lockable non portable container and only named staff will have access or in the fridge in the staffroom (pupils do not have access to this room). A medicine administer record is kept for audit and safety purposes.

Non-Prescription Medicines

Staff at this school will not administer these medicines at all and if necessary parents will need to come to the school to give these medicines to their children at certain times of the day by agreement. Exceptions to this will be only in conjunction with a signed letter from a doctor (e.g. Calpol for a known stomach complaint).

Long Term Medical Needs

Children admitted to the school, who have a long term medical condition, may need a Healthcare Plan completed for them. Please see Medical Conditions Policy.

Administering Medicines at Kea School. No child at Kea School will be given medicine without their parent's written consent using our official school form.

Staff administering medicines are volunteers and have no legal or contractual duty to do so and will always check:

- The child's name
- The prescribed dose
- Expiry date
- Written instructions by the prescriber on the label of container.

If in any doubt staff will not administer the medicines and seek advice from the parents or carers.

If necessary training will be given to staff before agreeing to administer specific medication.

Staff are aware of hygiene matters when administering medicines, plastic gloves are always available if necessary.

Staff will complete the school's pupil medicine administration form when administering medicine to an individual child. The form is filed on the child's personal file which is kept in the school office.

Refusing Medicines

If a child refuses to take medicine, staff will not force them to do so, but will note this on the pupil medicine administration form and inform parents of the refusal as soon as possible and within the same day.

School Visits and Sporting Events

Where at all possible the above procedures will be applied when children are away from school on school visits or at sporting events.

For overnight trips/camps, prior permission is obtained from parents to administer specified non-prescription drugs e.g. Calpol at the leader's discretion should the child need them.

Emergency Situations

All staff are required under Common Law Duty of Care to act like any prudent parent in an emergency situation. This may include taking such action as administering medicine.

Further information is contained in the Medical Conditions, Asthma and First Aid policies

Parental Agreement for Kea School to Administer Medicine

Kea School will not give your child medicine unless you complete and sign this form. Kea School has a policy so that the staff can administer medicine.
