

Homework tasks aim to consolidate learning from this week or prepare for our learning next week. Some of you will enjoy homework and want to spend hours on it; others will not be as enthusiastic. Please spend **at least** 20 minutes on each task (but no more than one hour), completing it as best as you can.

Accurate work is what we are looking for. Quality, not quantity.

Rewards: We will mark all work that is handed in on Tuesday and will endeavour to mark work that arrives in late. We will use the following tick and stamps to communicate with you the level of work.

Thank you for attempting this.

This is good work and has been completed to the expected standard.

Congratulations, you have completed this above the expected level.
With this stamp you immediately earn 1 house point.

House points will be awarded for additional effort and perseverance.

Consequences: If homework is not handed in on Tuesday children will be given the opportunity to complete their work during lunchtime.

If this happens twice in a row we will contact home to discuss whether the homework is simply not being done, or if it is manageable and further support is required.
